[illegible] Polo Club at Monmouth Park.

[illegible] exhibition of the California Polo [illegible] given at Monmouth Park yesterday A [illegible] of visitors at Long Branch turned [illegible] carriages to see the new game and a [illegible] left the branch at 4 o'clock The pro[illegible] First—The day of the Spanish [illegible] Los Dos Hidalgos Del Mowry Second [illegible] the Rodero picking up and lassoing, the [illegible] Jordan, Figuero Ballard and Carillo [illegible] of changing in long distance [illegible] of one mile three changes Mowry [illegible] Mowry Morgan Jourdan Carillo

[illegible] displayed much skill in his illustra[illegible] feats of Spanish gentlemen riders [illegible] horse was going at a sweeping gallop he [illegible] and on again with the greatest ease [illegible] the animal [illegible] swerving from his [illegible] he rode with a large Mexican saddle [illegible] After dismounting and remounting [illegible] manner several times and showing [illegible] articles picked up from the ground by [illegible] while going at [illegible] was led out on the track and Capt Mowry [illegible] When the animal's head was released [illegible] he dashed off bucking away at a [illegible] rate The mustang made the most [illegible] to throw his rider but the Captain [illegible] Sports of Rodero by four or [illegible] of the club showed how small articles are [illegible] from the field by California mustang [illegible] at a brisk gallop But one rider [illegible] object to be picked up and he failed [illegible] succeeded as well as the others [illegible] effort was to lasso a mustang Most of [illegible] are almost as docile as the average [illegible] horse One turned loose yesterday was [illegible] quiet. For a little while the animal [illegible] to leave its stable companions but after some persuasion he was made to travel at a pretty rapid rate and the horsemen pursued After they had got well away the riders began to throw their lassos The chase had not proceeded far when one of the riders lashed up to a white mustang and threw his lasso about twenty yards ahead and bringing the loop over the mustang's neck checked his own animal suddenly and threw the lassoed mustang on his haunches in an instant

For Capt Mowry's exhibition of rapid changes in long distance riding three horses were provided on each of which he rode a mile making two changes in front of the grand stand Before finishing the distance named a mounted attendant rode beside him at the finish and held his bridle while a second mounted attendant leading a second horse rode on the other side of the horse with the empty saddle, being brought next to the horse ridden by the captain Mowry seized the bridle of this horse in one hand and the pommel of his saddle with the other and he would try to jump from one saddle to the other In both efforts he seemed to drop on the horse's hip but with a firm grasp he held on to the saddle and dropping to his feet he bounded on the animal's back without checking his speed

There were only three players on each side for the match at polo with Capt Mowry leading one party and Capt Morgan the other Only two games were played and Capt Mowry's team won both The play was on the track which was too narrow to show the players to the best advantage

The End of the Fast Mail Service.

NEW YORK, July 23.—With the trains of yesterday morning ended the brief existence of the fast mail railway service, and its decease, as well as its birth is made the subject of something of a celebration by the postal clerks not on account of any dislike of the employment, but from a feeling that such an important event should be duly noticed As the train left the Grand Central Depot its course was marked for a considerable distance by the noise of fire-crackers and the display of Roman candles and colored lights The trains on both routes—the New York Central and Pennsylvania railways—each took out about the average amount of mail matter—the former about 25 tons and the latter about 18 It is impossible at present to state what arrangement will be made by the postoffice authorities for the prompt carriage of the mails To arrange for all the many connections which will have to be made with the new trains will take a large amount of work Change in one schedule necessitates change in others and this in turn necessitates inquiry and delay before it can be made Proper arrangements however, have been made covering the next two days, and early in the week it is hoped to have everything in good running order

Weather.

There were 11 prostrations by heat yesterday. The weather has considerably moderated however the thermometer standing at 85°.

WASHINGTON CITY.

Probable Repeal of the Resumption Act.

WASHINGTON, July 22.—Hendricks has evidently made a vote by the House in favor of repealing the resumption act an indispensable condition of his acceptance of the nomination He wants a practical soft money interpretation of the St. Louis platform before he steps upon it. His labors have had some success. Wike of Illinois, a member of the banking and currency committee having indicated that he is disposed to favor repealing the clause of the resumption act which fixes the date for resumption The committee consists of eleven members heretofore five have been hard money men consisting of four Republicans and Wike Randall Gibson being absent investigating the New Orleans custom house, the committee stood five to five. When Gibson returned he declared for hard money but Wike's defection gives six for repeal against five As this committee can report at any time if at the next meeting they order a bill reported repealing the date for resumption, the majority vote of the House can sustain the previous question and bring the House to direct decision of the issue The probability is this will be done by the middle of next week. Tilden's influence in the House will give the movement sufficient aid to insure success, in the belief that it will help the Democratic ticket in Indiana, Ohio and Illinois, although all know it cannot pass the Senate or be signed by the President.

The River and Harbor Bill.

Old-fashioned Democrats are horrified by the fact that Southern Democratic Senators show themselves more unscrupulous and greedy in connection with the river and harbor appropriation bill than the carpet baggers whom they displace. The price of this anti-Democratic log rolling combination is evident that West Virginia North Carolina and several of the adjoining States, receive the lion's share of the swag Edmunds castigation of the bill was merciless showing its absurd knavery so clearly that if it pass none can doubt the mercenary influences effecting the result.

The Pacific coast Senators were recorded as follows on Logan's motion to make the House bill a special order for action Mitchell, yes Booth Sargent and Kelly no, Jones and Sharon absent. Only three Republicans united with the Democrats, who worked solidly against this motion Twenty-eight Republicans voted for it, but two-thirds being required the bill was kept from passage, at least for the present.

Not Much Loss.

In regard to the death of Sitting Bull Gen Sherman says it will make but little difference whether true or not as the Indians have fully twenty as capable warriors to command them in case of a battle

The Chinese Question.

WASHINGTON July 22.—Congressional action on the Chinese question for this session was practically completed by the adoption by the House yesterday of Sargent's concurrent resolution consolidating the two special committees of inquiry into one joint committee, and providing that its expenses shall be defrayed equally from contingent funds of both branches of Congress The House also passed Randall's bill replenishing those now exhausted funds by an appropriation of $7400 to be used exclusively for this purpose This bill will be passed by the Senate shortly and the whole subject will then be left for further action after the report of the committee is presented next winter

Pacific Cable Bill

Munroe's telegraph bill authorizing a number of prominent California capitalists to lay cables to Asia has been returned to the House of Representatives Davis withdrawing his motion to reconsider by which it was suspended after its passage in the Senate It has yet to pass the House and meanwhile efforts are making to enact a bill also recommended by the Senate foreign relations committee, granting permission and privileges to all persons who may wish to lay ocean cables.

Decision on Soldiers' Additional Bounty Act.

Secretary Chandler acting on the advice of the Attorney General who is the law officer of the Interior Department has finally decided that entries of land under the soldiers additional homestead law are not required to be made in person but may be made under powers of attorney This decision confirms the title to large tracts of California timber entered by Alvinza Hayward and others last year

[illegible] Annexation of Walla Walla and Columbia Counties.

Wiggington by authority of the House committee on Territories has reported favorably on Lane's bill to annex Walla Walla and Columbia counties to the State of Oregon provided a majority of the voters of those counties so elect The report argues that the enactment of such a bill would give Oregon the natural boundaries fixed by the State constitution when applying for admission to the Union that the interests of these counties are identical with the interests of Oregon and not those of the rest of the Territory, and that their inhabitants experience great inconvenience in transacting business with their present seat of government and desire the proposed change Representative Fort as a minority of one dissents from this conclusion and submits the argument that the rest of the Territory should have a voice in this matter as the two counties include an area of 4000 square miles and a population of 10,000 or one fourth of the entire Territory their annexation to Oregon will not only throw the whole burden of the Territorial debt upon the remainder but would in his opinion postpone the admission of Washington into the Union

Bill to Perfect Title to Oregon Donation Claims.

Booth from the Senate public lands committee has reported favorably on Kelly's bill perfecting title to Oregon donation land claims technically covered by abandoned military reservations The bill is strongly recommended by the Interior Department

Commissioner Pratt's Successor

The *World's* Washington special says the President has tendered the position of internal revenue commissioner to Gen McDougal who may decline it In that event it is declared either Giles B Butcher of New York or Raum of North Carolina will be appointed No effort has been made to induce Pratt to remain The President asks for his resignation as he is not disposed to reconsider Pratt goes out August 1st it is now agreed

Adjournment of Congress.

Congress will not adjourn before the 1st of August if the judiciary committee [illegible] that it [illegible] impeach [illegible] if there is [illegible] adjournment before [illegible] Senate [illegible] that of Belknap That is the only contingency that now seems likely [illegible] the House [illegible] absentees [illegible]

The Silver Bill

WASHINGTON July [illegible] The President has not yet signed the silver bill Treasury officials state the section authorizing the exchange of $[illegible] silver for a like amount of legal tender notes will be practically inoperative the treasury not having the silver on hand the amount [illegible] sufficient for redemption of fractional currency

Impeachment of Robeson a Failure

The proposed impeachment of Robeson is a humbug Few believe any evidence has been discovered which gives reasonable chance for conviction but Glover chairman of the real estate pool committee apparently thinks he can make political capital by submitting a report proposing impeachment and delivering a campaign speech in its support Several wiser Democrats realizing that this would look like conspiracy have earnestly opposed the scheme and hence the failure of the impeachment programme [illegible] for Wednesday Glover proposes to show testimony seriously compromising Robeson which the latter's friends deny I doubt if [illegible] they will [illegible] the issue because they are sure of its reactionary effect against the Democratic House

Nominations.

The President nominated Geo. I. Talbot of Maine solicitor of the treasury vice Bluford Wilson resigned Thos J Brady second assistant postmaster general vice E. S. Tyner promoted postmaster general C C Sheats appraiser of merchandise in Mobile Col Benj Alvord postmaster general with rank of brigadier general Geo Andrews [illegible] district attorney for the western district of Tennessee

Gen Sherman to Wendell Phillips

Gen Sherman has written to Mr Tapham member of the Indian peace commission which is an answer to that published by Wendell Phillips The General alludes to Phillips letter as written at and not to him denies ever advocating or entertaining the policy of extermination and challenges the citation of any act or utterance of his in favor of that policy He favors keeping the Indians on reservations and protecting and caring for them when they remain there and believes in punishing them when they leave

Avery Pardoned

CHICAGO July 22.—The *Tribune's* Washington special says General Taft says that no pardon has yet been granted to W O Avery, now undergoing sentence of two years imprisonment in the penitentiary at Jefferson City Missouri for complicity in the whisky frauds A month ago or more Mrs Avery wife of the prisoner industriously circulated a petition for signature of newspaper men It was represented to them that by presenting to the President a petition bearing the signature of representatives of leading newspapers he would consider it in the light of a declaration that if he granted the pardon he would not be subject to criticism from that quarter Mrs Avery solicited the signatures of nearly all the newspaper men in Washington but none however signed the paper as newspaper men but all as individuals After securing the names of the newspaper men this document with others was presented to the President who referred it to the Attorney General He in turn referred it to District Attorney Dyer who approved the issue of the pardon on the ground that while Avery was guilty he was simply used as a cat's paw by others who escaped conviction Soon afterwards ex Governor Fletcher of Missouri came here to intercede in Avery's behalf He had been known by recommendation of Dyer and this coupled with Avery's bad health led him to indulge in a hope that his mission would be successful He made a call on the President who said he would be guided by the recommendation of Judge Taft The latter officer took the matter in hand but after reviewing the evidence is not inclined to recommend the pardon although he intimated that in view of Avery's state of health he would recommend that he be transferred from the penitentiary at Jefferson City to the four courts in St Louis and the common jail where he could receive better treatment and have no manual labor to perform This was not satisfactory to Avery's friends and last Wednesday they abandoned further efforts with Taft and again appealed to the President The rumor is that the President ordered a pardon to be issued and that it is now certified to and a copy on file in the State Department and that Taft knows nothing about it There is good authority for the statement that Taft said if a pardon was issued it would cost the Republican party a hundred thousand votes It is also stated that Mrs. Avery left Washington yesterday with the cheering assurance to her husband that the pardon was forthcoming One thing is certain Avery is pardoned and the papers bear a date in advance of 12 o'clock July 22d Judge Taft knows nothing about it.

The *Times'* Washington special says A good deal of excitement has been occasioned here to day by the report that the President had pardoned Avery without consulting the Attorney General, The statement that the pardon had been issued came from the friends of Avery yesterday and Mrs Avery has gone to Washington It is stated to be at hand when the document arrives at the prison On the other hand Taft knows nothing of the pardon having been issued It is not probable from present appearances that the pardon has been made out but rather that the President has given assurances of the intention which very greatly increases the hopes of those who are striving to secure one It may turn out that the story has its origin in the hopes and imagination of Avery's friends and especially as it seems incredible that the President should take action without consulting with Taft or at least without informing him of the purpose entertained by him The truth will be made known in a day or two and it is awaited here with some anxiety

Joyce and McDonald say McKee was Convicted on False Testimony.

ST LOUIS July 22.—Gen John McDonald and Col Joyce made affidavits to day that the testimony of Fraley at the trial of McKee regarding the payment of $[illegible] to McKee at the office of Gen McDonald was malicious and false in every particular This affidavit was sent to Washington to day

CONGRESSIONAL.

Senate.

WASHINGTON July 22.—Sherman called up bill appropriating $100,000 for the completion of the Washington monument

After discussion and adoption of amendments by Morrill providing for the examination of the foundation etc, and limiting the cost to $[illegible] the bill passed It appropriates $100,000 to continue the work in Washington The secretary shall transfer to the United States all its rights and privileges and providing that the work shall be under the direction of the Secretary of the Treasury and architect of the capitol

Logan called up House bill to regulate the issue of artificial limbs to disabled soldiers seamen and others which was amended and passed

The Senate then resumed consideration of the river and harbor bill

After a long discussion of the usual political character and in which many Senators participated a vote was taken on the pending question the motion of Thurman to recommit the bill to the committee on appropriations, with instructions to reduce the total amount to $4,000,000 and it was rejected—yeas 9 nays 25

The question then recurred upon the substitute of Edmunds offered some days ago to appropriate $4,000,000 for rivers and harbors, to be expended under the directions of the Secretary of War

Howe moved to amend the substitute so as to appropriate $1,600,000 instead of $1,000,000 rejected

Allison moved to amend the substitute of Edmunds by striking out all after the enacting clause and inserting in lieu thereof a bill which he gave notice of several days ago appropriating $3,271,000 for the improvement of rivers and harbors throughout the country Allison said the river and harbor bill as it now stood appropriated $4,739,000 and the substitute just read appropriated $3,271,000 or $1,467,[illegible] less than the amount in the bill before the Senate

Edmunds objected to the appropriation of $250,000 for the improvement of a harbor of refuge on Lake Huron including the removal of the wreck of the *City of Buffalo* and it was withdrawn after discussion

Allison withdrew the second section of his substitute appropriating $500,000 for surveys of rivers throughout the country and the question being on the substitute as modified it was rejected—yeas 17 nays 32.

The substitute of Edmunds was then rejected—yeas 12 nays 28.

Edmunds then submitted a substitute appropriating $3,[illegible] for the improvement of rivers and harbors to be expended under the direction of the Secretary of War rejected Yeas 16 nays [illegible]

Edmunds then moved to recommit to the committee on appropriations with instructions to report a bill appropriating an amount not exceeding $5,000,000 to be expended at the points of first importance mentioned in the bill rejected Yeas 11 nays 25

The question then being on agreeing to the amendments made in committee of the whole to the House bill [illegible] demanded a separate vote on each amendment when the fact was developed that no quorum was present and the Senate at [illegible] adjourned till Monday

POLITICAL.

The Sun on the Reform Democracy

NEW YORK July [illegible] The *Sun* has the following leader double leaded We have not much confidence in the Democrats who lead the party in the present House of Representatives Most of them are comparatively small men [illegible] If the party had really strong men [illegible] Robeson would have been impeached [illegible] long ago [illegible] The Democrats must have stronger [illegible] next Congress

The Herald on the Same

The *Herald* [illegible] We [illegible] representatives [illegible] the [illegible] The work [illegible] Republicans are casting about for [illegible] that [illegible] suggestion [illegible] Conkling [illegible] Robert E Kent

The New York Postoffice having been [illegible] of the committee on public buildings yesterday made a report [illegible] the structure after the appropriation [illegible] the work It strikes us that this is [illegible] We [illegible] reason for [illegible] the building was not exposed to damage [illegible] the appropriations [illegible] there being [illegible] complaint

New York Politics

NEW YORK July 2[illegible].—The efforts to get up a war between Conkling and anti-Conkling on the State ticket are likely to fail Conkling's friends will support Conger for Governor but will acquiesce [illegible] in convention [illegible] W. Curtis is not striving for [illegible] nomination on the contrary he prefers not [illegible] discount [illegible] of those Republicans who believe his nomination would add great strength to the national ticket throughout the State

The [illegible] Seymour [illegible] and Manton Marble is making an active canvass for the Democratic nomination

Time to Speak Out

PHILADELPHIA July 2[illegible].—The *Times'* Washington special manifests a strong disposition to support Tilden but says Is it not time for Tilden and Hendricks to make up their minds what they are going to say to the country This ridiculous delay is a manifestation of weakness unworthy of two such men If the trouble is that they cannot agree they might as well say so at once That would at least be honest and honesty is what the people chiefly wish for in their candidates this year

Favorable Indications for the Republican Ticket.

The Albany *Journal* says the improved prospects in other sections indicate that Hayes might be elected without New York The reunion of the party in Louisiana and strong nominations in North Carolina give promise of carrying both State

Blaine Bright, Alert and Brilliant

A private letter says Mr Blaine is bright, alert and brilliant, with a keen interest in and clear sharp views about everything He shows the effects of six weeks illness is easily fatigued but plays billiards walks in the grounds talks freely on all subjects not excepting his own condition and feelings and the Cincinnati convention He will speak at 12 or 15 places during the last month of the campaign

New York Liberal Convention.

A Liberal Republican State convention is called to meet in Saratoga August 23d to endorse the nomination of Hayes and Wheeler

C. C. Sheats Appointed Appraiser of Merchandise at Mobile

C C Sheats of Alabama an old acquaintance in politics has been nominated for appraiser of merchandise at Mobile This may perhaps be regarded as a happy appointment because there is nothing for the appraiser to do at that port and in view of that fact Bristow refused for a year and a half to appoint any one to the position Sheats was succeeded as the sixth auditor shortly after his confirmation because of incapacity to fill the position so his appointment to a place where there is nothing to require capacity is one of the greatest possible fitness.

People who Live in Glass Houses should not Throw Stones.

The *Times* editorially says If Democratic editors understand the meaning of the adage People who live in glass houses should not throw stones they will stop circulating their slanderous dispatches concerning Grant's habits otherwise they may be obliged to consider evidence which they will not like to examine concerning the condition of their candidate for President on the night he received the news of his nomination

Dissension in the Ohio Democratic Executive Committee.

COLUMBUS, O. July 2[illegible].—The chairman of the Democratic executive committee Hon W D Hill has resigned He belonged to the Allen or soft money wing of the party and it is understood he will be succeeded by Hon John G Thompson of the Thurman or hard money wing It is very doubtful whether the committee will be any more harmonious under the new arrangement than it was under the old Hill retires in an exasperated state of feeling and his dissatisfaction is shared by a large body of Ohio Democrats many of whom are still openly bolting the St Louis nominations.

Favorable Prospects for the Republicans in Ohio.

Hayes is receiving numerous congratulations on his letter of acceptance

THE MOHAWK DISASTER.

Description of the Catastrophe by one of the Rescued.

NEW YORK July 22.—Cool investigation confirms the original conviction that the capsizing of the yacht *Mohawk* was the result of grossest mismanagement by her sailing master who took not the slightest precaution against a squall the approach of which was evident to every body else He had set full canvas while the vessel was anchored. When the squall struck she was only beginning to get headway so the whole force of the wind was expended in drawing her down sideways The evidence shows also that the crew were undisciplined through inefficiency of the master otherwise the cabin inmates might have been rescued after the capsize The testimony shows that Commodore Garner lost his life in a chivalrous effort to save his wife when the water was already up to his neck He replied to a friend who held his hand trying to pulling him towards the hatch My God I cannot leave my wife Next instant the rush of water overwhelmed him The ladies appear to have been held down by the pig lead ballast which broke through into the cabin when the yacht careened

Col Crosby who was saved says When it began to rain hard we all ran down into the cabin for shelter We had been there four or five minutes when we heard a noise of wind and at the same time the vessel gave a tremendous lurch to port upsetting the cabin table and throwing the contents of that and the sideboard on to the floor Schuyler Howland Thorne and myself ran on deck Montant remaining in the cabin The sailing master was at the wheel but I did not hear him give any orders When we got on deck the water was rushing over the rail and through the side lights pouring down forward and aft If the captain had given orders at the proper time to cast off sheets we [illegible] ship should have been saved the catastrophe When he did give the order it was too late No one then could have let go the sheets as the decks were perfectly perpendicular When we saw that the yacht was certain to go over Garnier and myself jumped through the companionway into the cabin to save the ladies There they were screaming When I got into the cabin I saw that all the furniture lounges chairs &c had fallen to the port side Miss May was holding on to the mantle piece or shelf I scrambled to her and brought her to the after hatchway but the vessel had careened so that no one could ascend the companion way I had to lift her up through the opening and received assistance from How and Montant I then pushed my way back into the cabin and found the water half way up to my waist and everything floating around Saw Garnier trying to pull Mrs Garnier out from under the settee which had fallen from the starboard side crushing both Mrs Garnier and Miss Hunter against the sideboard. Both ladies were being crushed by the weight that had fallen upon them. With the assistance of one of the sailors I got the settee off one side and we pushed out through the door of the cabin I caught hold of Miss Hunter's hand and tried to pull her out Garnier was still trying to extricate Mrs Garnier with the sailor trying to pull away the objects that were holding them down I gave one strong pull at Miss Hunter's hand, which slipped through mine I falling back into the water When I regained my feet the water had covered her head Then I went to Garnier's assistance took hold of Mrs Garnier's left hand and he of the right Mr Garnier cried out For God's sake hang on Schuyler while she cried out that she was being held down with a weight With all our strength we could not extricate her All this happened inside of three or four minutes The yacht gave a lurch and the water submerged Mrs Garnier the sailor and myself When I came to the surface I saw a [illegible] light and swam for it coming out of a hole in the hatchway just behind the sailor Frost Thorne Mrs Garnier's brother who married the sister of Fanny Davenport is undoubtedly lost, though the body is still unfound

Capt. Howland Discharged.

The coroner's jury in the case of the *Mohawk* calamity announced in its verdict that Capt Howland was not guilty of any criminal negligence and he was at once discharged

PARIS, July 22.—The *Journal des Debates* publishes a special dispatch from Semlin which affirms that the Servians were defeated before Belina and that the Servian Gen Olympic's line of retreat is cut off The news of the Servian Gen Tchernayoff's defeat at Nisa and his retreat to Alexinatz is also confirmed

LONDON, July 22.—A special correspondent of the *Daily News* at Prince Milan's headquarters at Paracin telegraphs by way of Semlin under date of July 19th It means defeat to confess weakness on the part of the Servians Knowing that the Turks had communication with Widen and could draw troops thence confirms the belief that Lechjanin attacked the Turks with all his available strength but which attack was clearly made to anticipate the Turkish attack on Saitchar because he did not wait for the promised cooperation of Tchernayoff who either delayed en route or had to fight his way on his own account We may expect steady renewal of the Turkish attack on Saitchar, and much gloom prevails here While the Turks continue thus to persistently assail the eastern flank of the Servians and while the Servians can not do more than hold their own with difficulty the relative operations towards the southwest where they were chiefly intended are manifestly impossible More fighting in the same quarter is momentarily expected

In the meantime it became bruited throughout the county that Jacobs was the man who abducted a young lady, the daughter of one of our most [illegible] farmers, an old pioneer, and the excitement became intense. The farmers have been gathering in the city all day, and the expression became very general that the man had committed a crime against the morals of the community which the law did not make a felony, and public opinion has gradually tended toward lynch law This afternoon at 6 o'clock the jail was surrounded by about [illegible] men, Later in the evening the excitement grew greater, and it was necessary to call out the military to protect the jail At midnight the streets in the vicinity of the jail are densely crowded and it is feared mob law will take its course during the night. General Canavan has 30 men of the National Guard out and on duty The sheriff has also a large posse of extra deputies in the jail and its vicinity At the depot to day there was a large number of men who were evidently awaiting the appearance of the prisoner, whom they expected to be delivered to the San Francisco authorities but he did not leave the jail Had he been delivered to the San Francisco officer, it is very doubtful if he would have ever left the city alive.

Violent Rain Storm.

GOLD HILL, July 23.—This afternoon about 1 o'clock a storm visited this town exceeding in severity any experienced here in the last six or eight years. It partook more of the nature of cloud burst than rain storm The rain came down in torrents. The main street for half an hour was a very respectable river, muddy water tearing along like a mountain torrent Boulders as large as a man's head were carried along like marbles. Boxes, boots, garments, logs and all sorts of [illegible] were borne down the stream The water was pouring into stores and cellars and scores of men were out with shovels brooms and everything that would sweep aside the flood or change its course The water at one time was over a foot deep in the middle of the street. The damage has been comparatively small considering the immense body of water which swept through the town The foundation of the new Masonic building, the corner stone of which was to be laid a week from to-day, was slightly damaged During the storm, Tim Ryan, working in Lady Washington mine, was drowned while climbing up the shaft The company has a tunnel running from the main shaft to the ravine east of the works, the ravine became completely choked up, which turned the water through the tunnel into the shaft About 25 feet of water was in the shaft before the miners discovered it Ryan was climbing up the shaft to escape the water when the descending cage came down, striking him to the bottom of the shaft in the water Ryan was about 30 years old and a resident of this place for the last 12 years

GETTING AT THE FACTS.

Commissioner Dufur has done a great [illegible] for this State through his writings and [illegible] consequently [illegible] for [illegible] the State [illegible] Centennial [illegible]. And after the [illegible] was [illegible] he was [illegible] with Mr Dufur and Mr [illegible] of the [illegible] placing Oregon's exhibit in its appropriate prominence at Philadelphia were [illegible] are deserving of great credit. The exhibition of the productions of this State there has accomplished more to advertise the resources [illegible] that only [illegible] the [illegible] paying [illegible] and [illegible] that have been sent East to all sources, [illegible] and the like are always received with doubt and [illegible] positive [illegible] coming from persons [illegible] carrying [illegible] to the State, while the actual exhibit of Oregon products to the thousands and hundreds of thousands [illegible] the Exposition is the [illegible] public fact which cannot deceive and carries conviction of the truth of the very best that has been said of this Northwest coast. Appreciating thus highly the labors of our representatives at Philadelphia and especially of Commissioner Dufur we are as little disposed as any one can be to disparage him or underrate his endeavors. But the story circulating in the East and to which attention is called in a letter we publish this morning, is unjust to Oregon and her people, and should not be allowed to pass without correction. It has been stated repeatedly in Eastern papers that Mr Dufur had done all this with his own means, the State legislature refusing to lend any assistance. The State gave $2000 as mentioned by our correspondent, and citizens of the State gave, by way of private contributions, not less, if we are correctly informed, than as much more. Mr Dufur has given his time to this work, and deserves the thanks of the people for it, but it is doubtful if he has been out anything besides his time. [illegible] he should be reimbursed by the Legislature and indeed, we doubt not the people would approve the act of the Legislature at its coming session should pay him for his time as well as reimburse him for any moneys he has necessarily expended. The people of Oregon are not the niggardly race which the story referred to implies, as their action has already shown.

A FRIENDLY WORD TO THE POETS.

The number of poems we find on our table, on returning from a week's absence, is something astounding. No, we beg pardon; there is an immense amount of versification, by an immense number of writers, but no poetry. This is Centennial year, and a good time for people who have contracted bad habits to turn over a new leaf; we, therefore, take occasion to suggest, with the kindliest feelings in the world, to all who are addicted to versifying, to analyze their own cases carefully, and see whether it is not love-sickness or indigestion, or shallow sentimentality, or perchance the reaction from over much celebration instead of the divine afflatus, that is inspiring them and torturing us. A bit of genuine poetry is a treat as welcome and as enjoyable as it is rare, but a string of small conceits or lean and vapid common places done into verse—unscannable verse too, as we usually have it—is, perhaps, the most terrible infliction that can be devised to render the life of an editor miserable. We have pleaded so often and so earnestly for mercy in this matter, only to see our entreaties answered with fresh "poems," that we begin to conclude there are no bowels of compassion in any of the race of people who don't know the difference between inspiration and dyspepsia. Really, we should very much regret to give pain to even our persecutors unnecessarily, but if everything else fails to bring them to a compassionate realization of the wretchedness with which they are filling the daily drudgery of newspaper life we shall be tempted in sheer desperation to publish some of their effusions *verbatim et literatim et punctuatim* with the author's name attached, and thus turn all their neighbors loose at them. Then they would know how it is themselves."

HOW IS THE GATE TO BE OPENED?

In this paper appears a communication on the subject of river transportation which deserves attention. The present condition of affairs in regard to transportation just at the opening of the harvest is really a very serious matter to all classes, but especially to the farmers upon whom the high tariff bears with peculiar weight. The writer of the article which we publish this morning proposes to discuss the question through the OREGONIAN in a series of articles, and we invite others to do the same. Such a discussion, if conducted with fairness and without that personal bitterness which too often mars and weakens whatever is said upon subjects in which people feel a deep interest, can not fail to be profitable in bringing out the facts of the situation and the most speedy and practicable remedy. Let all sides be heard and all plans be [illegible] so that out of the diverse views the legislators to whom the subject must be referred at last, may have the arguments all before them. So far as we are concerned we confess that the matter seems to us beset with difficulties on every hand, and while we recognize the evil and the pressing need of some measure [illegible] we do not yet see how [illegible] the difficulty with [illegible] clearness [illegible] advise.

The board of managers of the Centennial Exposition [illegible] in regard to sickness on the [illegible] Dr. William Pepper who has charge of the department says he would gladly [illegible] complete reports [illegible] public, but for the [illegible] of the board [illegible] has [illegible] every [illegible] fifty cases [illegible] to the [illegible] of the regular physicians on the grounds, most cases of sunstroke [illegible] also is a frequent, though [illegible] not a fatal [illegible] of the [illegible] Centennial visitors. All patients, whatever [illegible] except those who have private houses, are taken to the hospital connected with the Ex[illegible] position where they are kept till 6 P. M., at which time they are quietly handed over to the authorities of the city hospital. A large proportion of the sunstroke cases prove fatal.

They [illegible] the nomination of Theodore Tilton for President by the St. Louis convention causes intense dissatisfaction with many of the Democrats of Jackson county, who have just heard of it.

THAT CENTENNIAL APPROPRIATION.

TO THE EDITOR OF THE OREGONIAN:

[illegible] published [illegible] the OREGONIAN [illegible] the Legislature [illegible] to appropriate [illegible] dollars for Centennial purposes. Of course the correspondent must have obtained this information from some one about the Centennial department and not unlikely the same person may have sent the letter to Oregon for publication. It is not correct. The legislature of 1874 appropriated $2,000 for Centennial purposes, [illegible] the money was drawn by Mr Dufur and [illegible] expended [illegible] what seemed to me unnecessary trips to the East. It would seem that not more than one trip could have been necessary, if indeed all necessary arrangements could not have been effected by correspondence. I would not obstruct any just appropriation on this head by the incoming legislature, but the State treasury is not in condition to indulge in any [illegible] nor ought the fact that two thousand dollars have been appropriated be forgotten. [illegible] PACKING COMPANY.—A sample [illegible] put up at the firm of Geo A L[illegible] near Oregon City, by the Clackamas Company has been left at this office [illegible] of the [illegible] canned cherries—[illegible] in respect to richness and delicacy the sample is not inferior to any [illegible] put up in the Eastern States or [illegible] This company we understand [illegible] facilities for canning fruits of [illegible] cherries peaches plums pears [illegible] vegetables meats etc. The [illegible] organized and operations com[illegible] year but notwithstanding the [illegible] of the enterprise they are [illegible] supply the market for Oregon and [illegible] coast. Considerable quantities [illegible] fruit have already been shipped [illegible] and produced a very favor[illegible] in the market. The fruit is [illegible] cans, in splendid order hermeti[illegible] and will keep sweet and fresh [illegible] The enterprise is certainly deserv[illegible] thousands of dollars are sent from the State for canned fruits and [illegible] could be kept here and put in [illegible] No State in the Union can pro[illegible] fruit vegetables and berries than [illegible] The process employed by the Packing Co in preparing fruit veg[illegible] and meats is not inferior to that of [illegible] or any of the large canning estab[illegible] Such useful and important [illegible] should be patronized and en[illegible] The company is prepared to fill all [illegible]

[illegible] HURT.—Saturday afternoon a [illegible] (one of the *demi monde* of the [illegible] Clara Olds while going to the [illegible] to see the races, in company [illegible] other frail sisters was thrown [illegible] severely injured. She was [illegible] fractious animal, and in an [illegible] to manage the horse let her foot slip [illegible] stirrup. This caused her to lose [illegible] animal, and finding that she [illegible] be thrown attempted to leap [illegible] At the same instant the girl [illegible] horse swerved to one side and kick[illegible] just as she reached the ground [illegible] struck the woman above one eye [illegible] flesh open almost to the bone for [illegible] and a half. She was knocked [illegible] the blow and it was some time [illegible] restored to consciousness. The [illegible] thought at first to be of a very [illegible] but an examination of the [illegible] that they were slight. It was [illegible] escape, and the young woman [illegible] feel thankful that she was not [illegible] or killed outright.

[illegible] RACE.—The foot race which came [illegible] White House Saturday afternoon [illegible] be quite as attractive and exciting to [illegible] the trotting contest. The con[illegible] R H Thompson James Day and [illegible] distance 100 yards first prize [illegible] and $25 in coin second prize. [illegible] Jos Buchtel was selected starter [illegible] Bacon and George C Sears judges [illegible] signal was given the three racers [illegible] like a shot. Thompson led from the [illegible] followed by Day, who in turn was [illegible] by Hamilton. Thompson dis[illegible] rivals by nearly five feet, winning [illegible] and carrying off the medal and purse [illegible] came out next best, took the second. The time was 10½ seconds. Day was [illegible] in the pools and Thompson sec[illegible] and consequently a considerable [illegible] cash changed pockets over the [illegible] This is probably not the end of the [illegible] we hear talk of the winner receiv[illegible] from some parties who regard [illegible] fleet footed, for coin."

[illegible].—The steamship *Ajax*, [illegible] from San Francisco for Portland [illegible] brings the following passengers: [illegible]endell 3 children and nurse, M [illegible] Thompson, Miss M L Powell [illegible] D Mannegro Mrs A L Coffee J [illegible] Mrs Matthews, Mrs E J Moore and [illegible] Fox, A M Stow, David Stump, [illegible] W Holden, B S Holmes, H M [illegible] R J Christie, T Garside M A Lane [illegible] Smith Mrs W Glendie and daugh[illegible] Aldheimer Miss M Stump [illegible] Miss E Taylor R W Crane [illegible] F Merrick and child, Mrs Dr S B [illegible] F E Corey, D Irvin J Shaw, R [illegible] Robert Bennett, J Everett F Da[illegible] J H Harpster L Newhouse, G S [illegible] Mrs McCown Mrs M G Lane [illegible] and family A Geary, wife and four [illegible] George Leslie A C Nichols Joseph [illegible] Mrs M Bennett and son, H C Moln[illegible] wife Mrs N R Ackerman and two [illegible] Mrs M E Oliver.

As the sum re[illegible] not very great, a small amount from [illegible] payable weekly or monthly is all [illegible] to guarantee one or more [illegible] week. The members of the band [illegible] pay for the time and it requires not [illegible] time consumed at the concerts but [illegible] necessary in order to give [illegible] tunity to produce something new [illegible] Let us have music by all [illegible]

Those who are con[illegible] with the facts will audibly smile [illegible] read the above. There was a Chas [illegible] met with an accident, but not the [illegible] burnt cork notoriety. THE T[illegible] ATION MONOPOLY

THE GREAT EVIL AND ITS REMEDY—"WHAT ARE WE GOING TO DO ABOUT IT?"

ALBANY July 21, 1876

To the EDITOR OF THE OREGONIAN:

The virtual consolidation of the Canal and Locks Company and Willamette Transporta tion Company, with the O S N Company which has recently taken place is exciting a great deal of indignation throughout the val ley counties. Many of the people are venting their wrath in useless not to say foolish and indiscriminate denunciations of the parties concerned in the transaction referred to. I know nothing of the circumstances which led the Willamette River Transportation Com pany and the Canal and Locks Company to transfer their property to the O S N Com pany and therefore do not propose to say anything about the sale. It is hardly in ac cordance with that spirit of fairness which is the boast of the American people to condemn any man unheard. It is but just before de nouncing as infamous a transaction which on the part of the Willamette Companies may have been dictated by financial ne[illegible] [illegible] withhold censure until the facts are known. But while it might be interest ing to know all the details of the strug gle made by the Willamette companies which has ended as a most all efforts at opposition [illegible] [illegible] end in the swal lowing up of the opposition by the old com pany [illegible] far more pertinent to determine what we ought to do under the ex isting circumstances. Lamentations and [illegible] over what is past are as unavailing as regrets. The evil is before us and the de mand for an adequate remedy is imperative. The Legislature will soon be in session and many suggestions are being made for its guid ance in dealing with the troublesome proposi tion involved in securing the great need of the country cheap and speedy transporta tion. It is well for the Legislature to move carefully and understandingly in the treat ment of a question of so much importance and compassed by so many difficulties. Noisy demagoguism while it may deceive the peo ple to their damage for the time being is never a safe counsellor for the legislator. Al ready the Legislature which made the con tract with the canal company under which the canal and locks were constructed is blamed and perhaps justly for voting away the money of the people without hedging the grant around with proper and legal safeguards. It behooves the present Legislature then, not to act rashly swayed by passion resentment or prejudice but carefully to collect all the information possible and then to provide for the admitted evil such a remedy as shall be indicated by the most far sighted and prudent statesman ship.

I propose briefly to call attention to some of the many propositions which have been suggested through the public prints and then to offer what seems to be the only true way to relieve the people from their present embar rassments. Some of the papers through the valley have proposed that the next Legis lature should pass some stringent law [illegible] the [illegible] [illegible] State and to the company which constructed the canal and locks so that the rights of the peo ple should be secured and protected. This suggestion if it had been made to the Legislature which granted the aid would have been a wise and just one and had that Legislature acted in accordance therewith much of the present annoyance would have been avoided. It comes too late now, however. It is like locking the stable after the horse has been stolen. The act re ferred to was a simple contract between the State and the canal company. The latter ac cepted the conditions imposed upon them by the Legislature and have executed the con tract. No reservations were made by the State which will empower it to alter or amend that contract.

Another proposition of a similar nature has been made to the effect that the next Legisla ture should appoint a commission to assist the canal company in its duties and see that no advantage is taken of those who propose to freight upon the Willamette river. This is liable to the same objections as the one al ready referred to. The State has no power to do anything of the kind or at least to en force any such legislation. It would be treat ed by the company and the courts as a mere legislative impertinence. "Thus the law is written" will the canal company say to every attempt to change or amend the contract be tween themselves and the State. Shylock con tending for every ounce of flesh which his bond gave him was not more inexorable than are the corporations of our day in claiming the uttermost benefits granted them by their charters or contracts with the government. Nor can our courts in the present instance construe away the contract in question with the ease with which Portia sent Shylock out of court upon his bond.

In the *Daily Albany Democrat* of the 20th inst is a proposition to organize a new com pany to construct the old railroad around the falls of the Willamette on the Oregon City side and be in a new opposition to the most pow erful monopoly ever organized in this State. The proposition is conditioned upon the farmers pledging grain enough at fixed prices to build the opposition steamers. This plan will hardly succeed.

It has not been long since the Willamette Transportation Company started on a similar basis, except that they had the canal and locks to use instead of a horse railroad which will necessitate an additional twice handling. [illegible] [illegible] although this opposition to the P T Co and the railroad [illegible] began under auspices more favor able than can soon be expected again the event has shown that the new company has been compelled to succumb to the gigantic re sources of the O S N Co when it chose to come into the field. Experience has always taught that blind perhaps to future interests shippers will always consult their present interests and patronize that line which will deliver their freight in the best condition in the shortest time at the lowest rates. Suppose the farmers of the valley build an opposition line of boats and a railroad around the falls and give them to some company to compete with the old line—for that is in effect what the proposal amounts to—what will be the result. Just as the P T Co was pushed to the wall by Holladay with his railroad and threats just as the W T Co went down before the power of the O S N Co so will any new company after a short and disastrous struggle contribute its mite in the way of boats and property to fill the coffers of the biggest monopoly that ever owned a lot in the State. Start a new line to freight at $[illegible] per ton, the old company with their superior facilities and practically unlimited resources have only to carry at $1 00 per ton to soon break down any effort at opposition. Then that the corporation may make themselves whole the [illegible] will have to [illegible] [illegible] for the [illegible] [illegible] the old company will plead the [illegible] [illegible] opposition.

Farmer [illegible] in the *Daily Albany Democrat* [illegible] the [illegible] the present monopoly. [illegible] great question a question of vital importance to Eastern Oregon and the valley counties now [illegible] that monopoly to be shorn of its strength? It is useless to talk of starting some little line of boats built by contributions of farmers. There is a way, and only one safe way out of the maze of difficulties so [illegible] this question. The Columbia and Wil lamette rivers are the great natural highways by means of which Eastern Oregon and the Willamette valley can reach the [illegible] with their products. Neither the O S N Company nor any man or any company should be permitted to have a toll [illegible] highways which nature has [illegible] the people. And the State [illegible] [illegible] such a thing is [illegible] duty to the people.

A heavy storm damaged the crops on the Touchet last week

The barkentine recently built at [illegible] a suburb of Seattle was launched yesterday

The *Grappler* ran ashore on Dares Island Saturday night [illegible] which on a trip from Victoria to Fort Wrangel laden with feed and grain. The steamer lies in a dangerous situation with the water flowing through her hull. Efforts are being made to recover the cargo, and it is thought that the steamer may be saved if the weather continues favorable. She is owned by Wm Moore of Victoria

John N. Young, of Port Townsend was on the 14th day of September 1869 convicted of murder in the second degree, and sentenced to the penitentiary of Washington Territory for a term of ten years. Having served about seven years and four months of said term in an exemplary manner the governor recently granted him a full pardon and a remission of the said sentence, and all the forfeitures and disabilities arising therefrom

The Olympia *Transcript* says "On Tuesday last, after leaving Port Townsend the steamer *Eliza Anderson* ran into a dense fog on the Straits and owing to heavy wind prevailing at the time was carried some distance away from the reckoning of the pilot and came near running on the rocks at Trial Island. The rocks were discovered just in time to prevent her striking. After backing out and taking a new course she reached Victoria harbor safely, but not without a close watchout and running very near the buoy outside the entrance. We shall probably have no smoke to interrupt navigation on the Sound and Straits this season, but fogs are unavoidable

The *Transcript* says "At Tacoma information is received that there is to be no work done upon the branch coal road this year. Mr Stark, the vice president of the road, was interviewed by some of the people who were most anxious on the subject and his reply was a stunner to those whose expectations had been highest. He frankly said the company had no money to build a road anywhere and were means abundant it could be used more advantageously in constructing other portions of the line. So the hopes of preemptors of coal lands and settlers in the Puyallup valley concerning a railroad are again dashed. Hops may yet be shipped by steamer from Puyallup to Tacoma before a railway is ready to compete for the freight

The Walla Walla *Watchman* says: "It is pretty well understood and generally believed among stock men that a band of well organized thieves have their headquarters located at some point on the Columbia above the mouth of the Snake river. There is a growing uneasiness among stock men in that quarter and they have but little assurance that they will ever find cattle or horses that have strayed away for any length of time. This band we understand are believed to extend their operations as far down as the Hudson Bay farm on the Walla Walla. A few head of horses and cattle are occasionally missing, and are not apt to turn up again. This is happening at various points at brief intervals. These men have been seen swimming small bands of cattle and horses across the Columbia where the probabilities of the owners finding them is more remote, while the danger to the thieves is less and the chances for working off are more numerous. Many of the cattle it is thought, are slaughtered for sale to the Indians, and Chinamen working in the mines on the Columbia river. To avoid detection the hides are either sunk in the river or effectually put out of sight by some other means. Stolen horses are driven to British Columbia, where the robbers can afford to sell them at cayuse prices, having acquired them at remarkably low rates

FARMING ITEMS.

Haying about finished and harvest well begun.

The prospect for an enormous yield of grain was never better in Linn county

Five hundred head of sheep were sold in Polk county last week for $1 per head

The first grain header that has ever been brought to Wasco county arrived at the Dalles Saturday

The cut worm that has been playing havoc at other places or some other kind of worm, has arrived in Polk county, and is making himself at home in the gardens and orchards

The dealers in agricultural machinery at Walla Walla have sold this season thirty headers twenty threshing machines, twenty mowers fifteen reapers, and several dozen gang plows.

A correspondent writing from Linkville under date of July 11th says a heavy frost visited Lake county everywhere the night before, destroying everything in the shape of vegetables and corn.

Mr E Schutz informs the *Mountaineer* that an army of crickets, numbering millions, made their appearance a few days ago between Dead Mule creek and Spanish Gulch on the Canyon City road in Grant county

Mr James Harris, who lives about two miles east of Dallas, has brought in a sample bunch of his wheat, which is not quite matured and the shortest head measures six inches and the longest nearly eight. It is of the Chili Club variety. Who can beat it?

The sound of the reaper is now daily heard on the North Umpqua, and the farmers in that vicinity are busy cutting the fast-ripening grain. For the next six weeks the towns in the county will be quite dull for when harvesting commences in earnest, the farmer has but little time or inclination to come to town until their grain is secured and threshed.

An extraordinary feat of sheep shearing came off last week in Klickitat valley, W T. Five men sheared a band of 604 sheep in eleven hours. They commenced at six o'clock in the morning and by six o'clock in the evening—taking one hour for dinner the last sheep was sheared. One man sheared 172, one, 154; one 130 two 104 each. We are not very familiar with this kind of work but learn from those who are that this was something away above the average

The Roseburg *Independent* says: "During a recent visit to Ten Mile we were shown a field of white English oats which surpassed anything of the kind we had ever seen before. The field embraced something over forty acres and was the property of Mr Burb Rockway. The oats were from five to seven feet in height, and closely set. The heads measured all the way from 10 to 19 inches in length well filled with nice plump grain. It was estimated by several parties that the oats would yield from 60 to 75 bushels to the acre and will be the champion field of the county

Arthur Langell arrived in Jacksonville from Lake county this week. From him the *Times* learns that stock is getting along finely and will soon be in condition for market. Cattle buyers have already been there in quest of fat beef cattle but could not be accommodated as yet. There will be plenty of hay cut this year although in some places in Langell [illegible] river and Link river valleys where it is usually cut there is considerable water yet standing. Mr Langell thinks that cattle will command a better price this year than for some time past. The loss of cattle as has already been stated was severe during the past winter cows being the principal sufferers. Jesse D Carr a man [illegible] told him that they had this year branded less than [illegible] calves against 800 last

The *Statesman* says: "Three young men in Yamhill county have got themselves into a little scrape on account of some female inhabitant of Grand Ronde Indian agency. They found it necessary to leave the country and will hardly return for some years to come

Summer Smith, the boy who stole money and a watch from a Chinaman at Buena Vista went up for one year. He plead guilty

4,000 ACRES, IN QUANTITIES TO SUIT PURCHASERS.

230 ACRES DUE SOUTH AND ADJOINING the Railroad Depot at Salem all under cultivation and suitable for grain or vegetables

946 Acres four miles southeast of Salem on the railroad with Mill creek running through it. This is the choicest farming land in Marion county with fine springs consisting in part of the old Reetor donation claim on which I raised the past year fifty bushels of wheat and three tons of timothy per acre. The first crop of oats ever raised on part of this land measured ninety four bushels per acre grain weighed and ground channed by Mr Alfred Stanton of Salem

2,700 Acres of prairie and light brush land with timber for farming purposes bounded by the Willamette River for four miles beautiful lake on the east boat landings all along the river, commencing four miles north of Salem—all choice grain land—the largest and most suitable body of land to be found in the Willamette Valley to be purchased by a colony. To be sold from $15 to $2 per acre. This land will all be immediately resurveyed and can be sold in larger or smaller parcels to suit purchasers. It can be subdivided to the best possible advantage and I can offer any person or persons or colony of persons desiring to purchase homes in the best part of the Willamette Valley near the city of Salem and within reach of the best social advantages as well as most favorably located with respect to markets greater advantages on more favorable terms than they can ever expect to realize again. VALUABLE LANDS FOR SALE.

600,000 Acres in

EASTERN OREGON!

For Farming and Grazing Purposes.

THESE LANDS ARE SITUATED IN WASCO Grant and Baker counties and are offered for sale in such sized tracts not less than 160 acres as purchasers may desire. Here is afforded a most favorable opportunity to immigrants and settlers seeking homes to [illegible] land to be acquired on the most reasonable terms. These lands are excellent for farming and grazing. On most of the tracts no grubbing or other preparation of the land for plowing is required. A growth of nutritious grass covers the lands affording the best of pasturage while in the valleys and bottom lands the grass can be mowed and made into hay. Living springs and streams water the lands in various directions. The uplands or rolling lands can be put into crops with the most satisfactory return. Fruit particularly peaches plums grapes apples pears and cherries as well as the smaller fruits can be grown in great abundance. The climate of Eastern Oregon is very healthful. Flourishing towns are located at convenient points for traffic the mails are regularly conveyed throughout that section and a prosperous population is already established occupied in farming stock growing mining and various other pursuits. Terms $1 25 per acre and upwards according to quality and quantity. Interest ten per cent on deferred payments.
